# Netherhall Learning Campus Junior School Pupil Premium strategy statement 2023/24 (3<sup>rd</sup> year of plan)

This statement details our school's use of pupil premium (and recovery premium) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

## **School overview**

Detail	Data			
School name	Netherhall Learning Campus Junior School			
Number of pupils in school	296			
Proportion (%) of pupil premium eligible pupils	162 = 54%			
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	21\22/23			
Date this statement was published	September 2021			
Date on which it will be reviewed	September 2022 – reviewed 7.9.22 September 2023 – reviewed 8.12.23			
Statement authorised by	Michael Kent			
Pupil premium lead	Zoë Lowe			
Governor / Trustee lead	Geoff Kernan			

## **Funding overview**

Detail	Amount
Pupil premium funding allocation this academic year	£270155
Recovery premium funding allocation this academic year	£26100
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year  If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	£296255

### Part A: Pupil premium strategy plan

#### Statement of intent

All members of staff and the Local Governing Body accept responsibility for 'socially disadvantaged' pupils and are committed to meeting their pastoral, social and academic needs within a caring and nurturing environment. We hope that each child will develop a love for learning and acquire skills and abilities commensurate with fulfilling their potential.

• To ensure Pupil Premium children's progress and attainment is equal to or greater than their non-pupil premium peers.

All staff recognise and accept that the vast majority of pupils' progress comes out of quality First Teaching and Learning on a day-to-day basis. There is, therefore, a major drive for independent learning, the development of thinking, communication and language skills and clear assessments that support learning.

- To ensure that Pupil Premium children have the same access/opportunities for learning as the rest of the school Support is given to ensure that all pupils have full access to broad educational experiences, such as trips and enrichment activities.
- To ensure that Pupil Premium children attend school regularly and the level of persistent absence is reduced.

Staff, teachers, parents, carers and pupils understand the causal link between attendance and achievement. Attendance levels for all disadvantaged pupils are checked and acted upon. Systems are in place to ensure early identification of need.

### **Challenges**

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Low or poor attendance
2	Readiness for learning - Intergenerational limited aspirations and engagement with education
3	Low attainment in KS1 including lack of early life experiences – access to play, language, books, positive relationships and boundaries
4	Low self-esteem and significant mental health needs

#### **Intended outcomes**

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria		
Pupil Premium children's progress and attainment is equal to or greater than their non-pupil premium peers	Progress of PP children is at least in-line with non-PP children with many making accelerated progress		
Pupil Premium children have the same access/opportunities for learning as the rest of the school	PP children all accessing trips/visits and sporting opportunities		
Pupil Premium children attend school regularly and the level of persistent absence is reduced	Percentage attendance of PP children is broadly in line with non-PP children		
Reduce fixed term exclusions	Downward trend and closer/in line with National		
Pupil Premium children will make good or better progress in Maths – this will develop language capability and support mathematical thinking for reasoning and problem solving	PP children will develop a love of Maths, engage in lesson built on small steps that follows a coherent approach.		

## Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

# Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £ 47315

Activity	Evidence that supports this approach	Challenge number(s) addressed		
Ensure all relevant staff (including new staff) have received paid-for training to deliver the Read Write Inc Phonics and Fresh Start and Fast Track programme catch up and intervention programme	EEF literacy research "Phonics approaches have been consistently found to be effective in supporting younger readers" – Education Endowment Fund (EEF)	2 & 3		
Develop a love of reading and improve the educational outcomes in Reading narrowing the gap to national standards through high quality teaching of reading and a consistent approach to teaching reading across KS2 through VIPERS.	"Reading comprehension strategies are high impact on average (+6 months). Alongside phonics it is a crucial component of early reading instruction." (EEF)	2 &3		
Increased staffing levels – to reduce class sizes	By reducing class size the intention is to implement all strategies to a smaller audience thus allowing students more access to teacher time. to implement	1,2,3,4 & 5		

## Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £103969

Activity	Evidence that supports this approach Challenge nun addressed					
To plan, deliver and evaluate high quality feedback and targeted interventions matched to individual needs.	To use appropriate diagnostics to acutely identify gaps in knowledge/barriers to learning in order to plan high quality interventions matched to individual needs.	2&3				
Provide small group/1-1 support for those identified as causing a concern – including pre-teaching and same day live interventions	From specific diagnostics that accurately identify gaps in knowledge/barriers to learning "Overall, the pattern is that small group tuition is effective and, as a rule of thumb, the smaller the group the better" – EEF	2&3				

## Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £ 207034

Activity	Evidence that supports this approach	Challenge number(s) addressed
Addressing behaviour and attendance through breakfast clubs, CPOMS, Behaviour system, learning mentor and MHST lead.	Data shows that children with better attendance and punctuality make more consistent progress with their learning	1,2, 3 &4
To meet the SEMH and/or Health needs of all Pupil Premium learners to ensure that they are ready to learn	Our evidence shows that children with better developed SMEH skills thrive and achieve well.	1,2,3 &4

Learning Mentor, Safeguarding	
Officer and MHST lead)	

### Total budgeted cost: £ 358318

#### Part B: Review of outcomes in the previous academic year

## **Pupil premium strategy outcomes**

Since September 2012 all schools have been required to publish information on their Pupil Premium funding. The Department of Education issue the Pupil Premium allocation to schools based on 'Ever 6' as of the most recent census. This funding is available for us to support children in care, adopted children, children of parents serving in the armed forces and children known to be eligible for free school meals over a 6-year period. For the period 1st September 2020 to 31st August 2021 Netherhall Learning Campus received Pupil Premium funding of £229,000.

Our Pupil Premium initiatives have included:

- Use of the post of pastoral team with a focus on attendance support and SEMH support. To ensure children are in school, ready to learn and able to progress appropriately. Support to remove barriers to effective learning.
- School breakfast club staffing
- Additional staffing to reduce class sizes to enable children to learn in smaller groups
- Fully funding of trips, visits and visitors to school in promotion of inspirational events and experiences, including Year 6 residential visits.
- Develop Nurture provision and support social and emotional development of pupils using a THRIVE approach across school and with qualified THRIVE staff
- Whole staff phonics training including RWI and Fresh start intervention. Key staff release time

#### **Impact Summary 21-22**

We have used a tiered approach to learning to meet needs of pupils across school. Using a recovery curriculum arrived at through staff, pupil and parent consultation we deliver a broad and balanced curriculum with a focus on reading, a love pf reading and a development of reading strategies including use of VIPERS and a language rich curriculum to help improve our children's cultural capital.

Funding was used to train staff with THRIVE and enable class profiling alongside bespoke approaches for key children, in order to improve the readiness for learning. We firmly believe that good teaching is the most important lever schools have to improve outcomes for disadvantaged pupils and have a robust QA cycle to monitor provision and outcomes and enable early intervention where progress is slower than peers.

## Priority 1 – Quality of Teaching for All

We have a strong pastoral team including Attendance officer, Learning Mentor and Behaviour worker to help remove barriers to school and ensure children are attending school and have the SEMH security to enable them to engage effectively in learning. We employed additional teachers to remove need for mixed age classes and larger (more than 30) class sizes as we recognize that our children learn more effectively in smaller groups with more opportunity for adult support.

We carried out whole school phonics training to enable whole classes and intervention group teaching across school. We employed a full time tutor using the recovery funding to address key areas of need within Y5. School staff also carry out 1:1 tutoring over the school year.

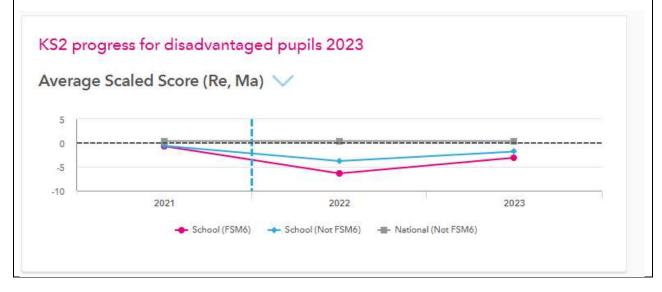

### Priority 2

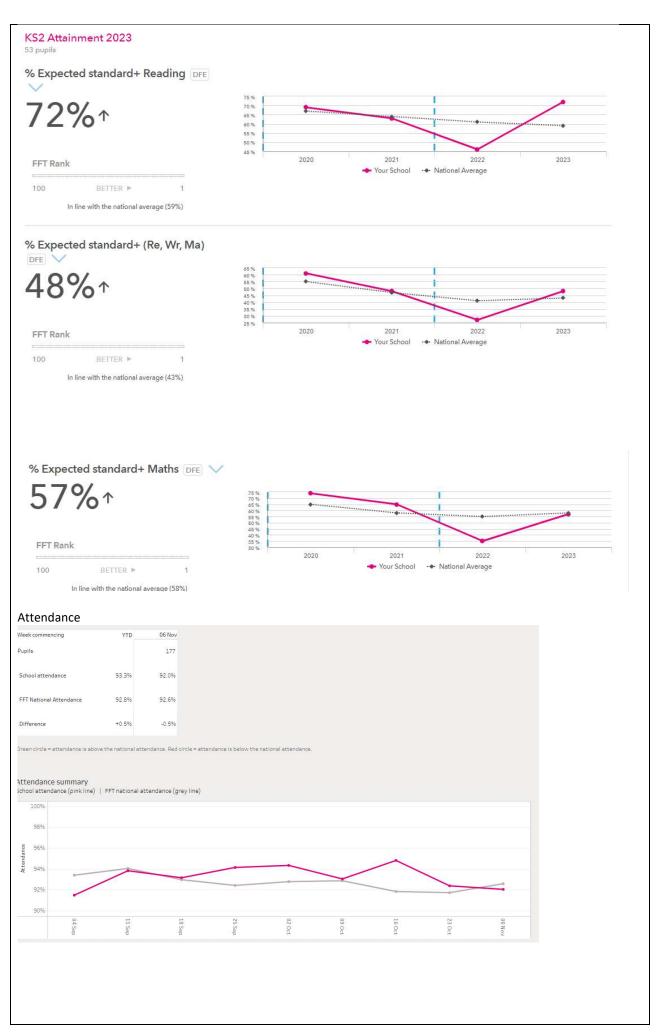

We are a fully THRIVE trained school with 5 THRIVE qualified practitioners – the ethos underpins our approach to supporting the SEMH needs of our children to enable them to be effective learners.

We have fully funded all trips, visitors and residentials to enable all of our children to have a rich spectrum of experiences that will provide them with language and emotions that that they may not normally be exposed to. This is mapped across a broad and balanced curriculum that is regularly reviewed and evaluated based on the needs of our pupils.

# **Externally provided programmes**

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England

Programme	Provider

Date	Actions & Activities	How? What Impact Measures can you report?	Lessons Learned	Next Steps
Autumn 22/23	All school phonics trained	Training completed		
22/23	Effective phonics groups in place to address lowest 20% readers	LJ completed assessments of whole school – Y3/4 into mixed phonics groups – some children remain in English lessons.		
	Interventions groups in place	ETS and staff running reading/writing and maths interventions		
	Y5 tutor in place	Robust timetable set using assessment data to identify need		
Spring	Phonics assessments completed for all RWI	Autumn data showed closing of gap between NPP and peers.	Spring assessment -	CPD session to share good
