About us

Welcome to the Netherhall Learning Campus Primary Phase Specialist Provision for pupils with physical disabilities and associated learning difficulties.

Our brochure tells you a little bit about us and the work we do to support children with a physical disability.

The Provision was first established in 1966 and provides an excellent learning environment for all children. We have a wealth of experience amongst the teaching and support staff and specialist equipment in modern suites available at all times.

The schools value individuals, encouraging them to fulfil their potential by dealing with their personal and social needs together with the development of their intellectual, physical and practical skills.

We offer a fully inclusive provision which makes effective use of a range of teaching and learning styles, differentiation, small group work and learning support to raise the achievement of pupils in the provision within the inclusive context of a mainstream school.

How we can help you

Our experience, resources and information are now being utilised to supply a service aimed at providing guidance and support for mainstream schools so that children with physical disabilities can be maintained in their local school.

Information on and a Referral form for **Kirklees Specialist Provision** is now available on the School's section of the Kirklees Website. *

The aim of the service is to support and help assess pupils in primary schools offering advice and professional support where appropriate.

Following a successful referral the Specialist Provision will make contact with you as soon as possible. We will then work in partnership to provide the best possible outcomes for the child. This may be through:

- ✓ Discussion
- ✓ Advice about access, care needs, equipment etc
- ✓ Teacher/TA support
- ✓ Sharing of resources
- ✓ Signposting to other support agencies.
