NHS Test and Trace: COVID-19 testing for staff and students

Dear Parent/Carer

We are working to keep our school as safe as possible. You may have heard that testing for those without coronavirus symptoms is beginning across the country using new, quicker COVID-19 tests known as ‘lateral flow tests’.

Along with the other protective measures we are taking, these tests will help staff and students to remain in school safely. Up to one third of people who have coronavirus experience no symptoms. By testing we will help to stop the virus spread and help to keep our school open as safely as possible. The test is voluntary, but I would encourage everyone to take it.

We will be testing all staff and students who want to participate from week commencing 11th January 2021. I enclose an instructional leaflet with some more information.

If you are happy for your child to be tested, please fill in the form using the link below **by 12pm Tuesday 5th January 2021**.

<https://forms.office.com/Pages/ResponsePage.aspx?id=4JtNyKfbsUmx5vB7agfyIVs5MMscXzVFiwPjISggW4hUNKoxNDhOTk9ZQkZHRTA0WISSUg3NTdVWS4u>

Those taking the test will be supervised by trained staff. The ‘lateral flow’ tests are quick and easy using a swab of your nose and throat. If you consent for your child to take the test you will be sent an individual appointment and further instructions to how this will be facilitated.

Positive test results will be shared with you directly and you will be advised to take a further PCR test at your local site. These can be booked online in the usual way. If you don’t hear from us following the lateral flow test, assume your child’s test result was negative.

We know these tests work - in validation studies conducted by Oxford University and Public Health England, they were shown to be as accurate in identifying a case as a PCR test (99.68% specificity). The tests have lower sensitivity but they are better at picking up cases when a person has higher viral load, hence the need to test frequently.

Testing will be offered free of charge.

We require a written response for your consent and if you do not complete the short questionnaire we will assume consent has not been given. There may be multiple tests required and your consent covers all tests for your child and that consent can be withdrawn at any time ahead of the test.

Your consent is assumed to be indefinite, however you may change your permission at any time by informing the school office. The results from the lateral flow test will be shared with the DfE via their secure online portal, information shared will be secure and will follow the school's GDPR guidelines.

If you have more than one child at the school, a response will be required for each child. Please click 'submit another response' at the bottom of the questionnaire.

What if a pupil tests positive?

Participating staff and pupils who test positive will be informed about their results individually. Where participants are under 16, parents or legal guardians will also be notified. Guidance on safe travel and additional precautions will be provided along with test results.

Pupils will need to take a further 'PCR test' (similar to those done in local and regional testing sites) on the same day (or as soon as possible). School will be able to provide these PCR test kits to perform at home or you can go to www.gov.uk/get-coronavirus-test or call 119 to book a follow-up test. If ordering a PCR test yourselves, they should choose to visit a drive-through test site if possible, as it is faster than requesting a home test.

During this time while they wait for the PCR result (via text / email) they will need to self-isolate.

If the PCR test returns a positive result you will have to self-isolate and follow the guidance from NHS Test and Trace.

What happens if the test is negative?

They will be able to stay in school and resume their activities as normal. A pupil will only be told if they test positive on a 'lateral flow' test, so if you do not hear you can assume it was negative. A small number of pupils may need to repeat the test if the first test was invalid or void for some reason.

What if a close contact at school/college tests positive?

A close contact of someone in school/college who has tested positive for COVID-19 will be able to return to school if they agree to be tested once a day for 7 days and the test is negative. If they do not want to take the test, they will need to self-isolate as per the national guidelines. This does not apply to household members or close contacts outside of school who will still need to self-isolate. Further details will be provided at the time, but if you would prefer to self-isolate instead of doing daily testing, you can.

What if my child develops symptoms?

This testing programme at school is for people with no symptoms. If your child develops symptoms at any time (such as a high temperature; a new, continuous cough; or a loss or change to their sense of smell or taste) they must immediately self-isolate, and book a test by calling 119 (England, Wales and Northern Ireland) or 0300 303 2713 (Scotland) or visiting <https://www.gov.uk/get-coronavirus-test>.

We will support our staff and pupils throughout, but please contact us if you need this information in any other language or format or if you have any questions. You can call the office on 01484 382140 or email info@nlconline.org.uk

Yours faithfully,

Michael Kent
Principal
